

**Wacky Mad Scientist  
Party Packages**

**Fizzy Fun: \$95.00**

Includes:

- Admission for a party size of up to 10 kids
- Private party room complete with its own *Mad Scientist Lab* for 2 hours
- Two **Wacky Mad Science Activities** (see back list for details)
- Mini guided tour of the Science Center
- FREE admission to Truassic Park and FREE zip-line ride (weather permitting)
- FREE **Wacky Science** gift for the birthday child

• Additional party participants: \$9.50 per person \_\_\_\_\_ = \_\_\_\_\_

**Blow-up Blast: \$115.00**

Includes:

- Admission for a party size of up to 10 kids
- Private party room complete with its own *Mad Scientist Lab* for 2 hours
- Three **Wacky Mad Science Activities** (see list for details)
- Mini guided tour of the Science Center
- FREE admission to Truassic Park and FREE zip-line ride (weather permitting)
- FREE **Wacky Science** gift for the birthday child

• Additional party participants: \$11.50 per person \_\_\_\_\_ = \_\_\_\_\_

**Experimental Excitement: \$135.00**

Includes:

- Admission for a party size of up to 10 kids
- Private party room complete with its own *Mad Scientist Lab* for 2 hours
- Four **Wacky Mad Science Activities** (see list for details)
- Mini guided tour of the Science Center
- FREE admission to Truassic Park and FREE zip-line ride (weather permitting)
- FREE **Wacky Science** gift for the birthday child

• Additional party participants: \$13.50 per person \_\_\_\_\_ = \_\_\_\_\_

*Child's Name:* \_\_\_\_\_

**Wacky Mad Scientist**  
*Activities and Party Extras*

- Advanced Molecule DNA Structure Building
  - Balloon Blast Explosion
  - Bobbing for Eyeballs
  - Radio Active Slime
  - Bubbling Glitter Globes
  - Glow in the Dark Comets
- Color Collusion Experiment
- Soap Fluffing Experiment

*Party Package Total:* \_\_\_\_\_

- Small Volcano Eruption—\$5 + \_\_\_\_\_
- Big Volcano Eruption—\$10 + \_\_\_\_\_
- Steaming Dry Ice Party Punch—\$20 + \_\_\_\_\_
- Themed Place Settings—\$3 each + \_\_\_\_\_
- Power Packed Prize Bags—\$3 each + \_\_\_\_\_
- Round of Mini Golf—\$20 + \_\_\_\_\_
- Extra Zip Line Tokens—\$2 each + \_\_\_\_\_

Grand Total: \_\_\_\_\_  
 - Coupon: \_\_\_\_\_  
 - Deposit: \_\_\_\_\_  
 Balance Due: \_\_\_\_\_

## Wacky Mad Scientist Activity Descriptions

- **Advanced Molecule DNA Structure Building**

This activity is a game where kids try to create 3D structures from mini marshmallows and toothpicks. The birthday child does the judging, and a prize is awarded. This activity is not educational but is very fun for all ages.

- **Balloon Blast (Educational)**

This activity is an experiment where participants try to capture gases that are formed by a chemical reaction between baking soda and vinegar in a balloon. The balloons quickly expand, and eventually fly off for a hoot of a time. This activity is educational for all ages and comes with a small science talk on chemical reactions and operational science.

- **Radioactive Slime**

This activity is a messy, hands-on mixing project that creates a simulated slime that glows under black lights. Participants get to take their own baggy of slime home with them. This activity is not educational but is very fun and exciting for all ages.

- **Bobbing for Eyeballs**

This activity is a silly game where participants get to break into teams for the chance to bob for pretend eyeballs. This activity is not educational and is geared toward older ages.

- **Bubbling Glitter Globes (Educational)**

This activity involves making glitter globes using recycled water bottles, oil, water, dye and beads. To create a bubbling effect, effervescent tablets are added at the end. This activity is educational for all ages and involves a science talk on mixtures and solutions.

- **Color Collusion Experiment (Educational)**

This activity is an experiment using milk, dyes and dish soap. Colors are added to the back drop of milk and then swirled by participants when touched with dish soap. This activity is educational for all ages and involves a science talk on surface tension and observation.

- **Glow in the Dark Comets (Educational)**

This activity is for the outer space and art lover. Using a small ball, cellophane, tissue paper and plastic string, pretend comets are constructed that will glow in the dark. This activity is educational for all ages and involves a science talk on comets.

- **Soap Fluffing Experiment (Educational)**

This experiment involves Ivory® soap and a microwave, causing a fluff from the hard bar of soap to make cool shapes. This activity is educational for all ages and involves a talk on drawing conclusions in science.
